INFORMATION

(Includes course manual, snacks in the morning and afternoon)

- A non-refundable minimum \$300 deposit is required to reserve a space in the course.
- Full tuition is due no later than **one** month prior to the course start date.
- If registrant cancels prior to the course, a non-refundable \$300 will be charged and the balance of the paid tuition will be refunded.
- Canceling or being absent on the **first day** of the course regardless of reason is considered an automatic cancellation, tuition is forfeited and there is no refund - **no exceptions**.

A 4-day intensive tutorial in the diagnostic and therapeutic application of *Animal Normalization Techniques (vascular, lymphatics, and functional indirect techniques)* as applied to the extremities of the canine/feline.

These techniques use the principles of motion testing, inherent tissue motion and motion in relation to the restrictive barrier. Lecture, demonstration and hands-on applied practice of the techniques for the various regions will be given. Emphasis will be placed on palpatory skills.

This tutorial addresses evaluation of:

- Introduction to the Principal of Osteopathy
- Joint Mechanics - specific for upper and lower extremities
- Treatment protocols for vascular and lymphatics restrictions
- Canine Gait Analysis
- Tuning Fork - Osteophonics
- Foot Reflexology
- Must have taken Intro and Advanced classes or approval by Patricia Kortekaas

Approved by Oregon, Washington, and California Veterinary Licensing Board for CEU's.
