- A minimum \$200 deposit is required to reserve a space in the course.
- Full tuition is due no later than **one** month prior to the course start date.
- If registrant cancels **3 weeks or more** prior to the course, a non-refundable \$100 will be charged and the balance tuition refunded.
- If registrant cancels **within 3 weeks** of the course, a non-refundable \$150 will be charged and the balance of the paid tuition will be issued in a credit letter good towards a future course.
- Canceling or being absent on the **first day** of the course regardless of reason is considered an automatic cancellation, tuition is forfeited and there is no refund - **no exceptions**.

A 4-day intensive tutorial in the diagnostic and therapeutic application of *functional (indirect) techniques* as applied to the cervical spine and lumbar pelvis area of the canine/feline.

These techniques use the principles of motion testing, inherent tissue motion and motion in relation to the restrictive barrier. Lecture, demonstration and hands-on applied practice of the techniques for the various regions will be given. Emphasis will be placed on palpation skills.

This tutorial addresses evaluation of:

- Introduction to the Principles of Osteopathy
- Anatomy/physiology of the spine and pelvis
- Gluten's impaction
- Beginning spinal and sacral mechanics
- Lumbo-pelvis dynamics
- Class available for Veterinarians, Vet. Technicians, Physical Therapist and other health care providers

Approved by Oregon and Washington Veterinary Licensing Board for CEU's.
