 La Quinta, 155 Day Island Road
 Eugene, OR 97403
 (541) 344 - 8335

REGISTRATION

Fee: \$1,200 and Retakes: \$850
 Checks payable to Patricia M. Kortekaas PT, ANT-c

INFORMATION

(Includes course manual, snacks in the morning and afternoon)

- A minimum non-refundable \$300 deposit is required to reserve a space in the course.
- Full tuition is due no later than **one** month prior to the course start date.
- If registrant cancels prior to the course, a non-refundable \$300 will be charged and the balance of the paid tuition will be refunded.
- Canceling or being absent on the **first day** of the course regardless of reason is considered an automatic cancellation, tuition is forfeited and there is no refund.

A 4-day intensive tutorial in the therapeutic application of *Animal Normalization Techniques (ANT)*.

These techniques use the principles of Thomas Myer's Anatomy Trains and fascial lines, motion testing, and motion in relation to musculo-skeletal and visceral dysfunctions..

Comparisons between humans and animals. Emphasis will be placed on palpatory and osteopathic skills.

This course will cover **facial/dura** in relationship to ANT:

- Explaining Anatomical Trains and lines from Thomas Myers, its application to humans and animals, and to “neurological fascial innervation” (i.e., “Breaker Theory”).
- Arthro-kinematics in relationship to fascial lines and use in the practical world: Fascial BioMechanics concepts.
- Review of connective tissue inter-relationship with “shock” (sympathetic overdrive), lymph stagnation, and gluten impaction.
- Principles of Osteopathy - Discussing the highest level of protective hierarchy of the body to blood, lymph, and fascia!
- Fascia, Fascial Biomechanics, Fascia Visceral and Dura techniques.
- Combination of fascial lines with the “neurological gait cycles”, and foot reflexology.

Approved by Oregon and Washington Veterinary Licensing Board for 30 hours of CEU's.
